Editor and Proprietor

THURSDAY, JULY 22, 1897.

THE SHOOTING ACCIDENT.

We exceedingly regret having to  
again refer to the accident that  
occurred on the 12th inst., and  
which plunged a home in sorrow  
and drew forth the sympathy  
and regrets of our friends and town-  
people. Accident though it was,  
it will be a lesson to parents and  
guardians to be more careful in al-  
lowing their boys to handle firearms.  
Accidents are liable to occur even  
with persons of mature years in  
handling firearms, therefore how  
much more caution should be exer-  
cised in permitting their use by  
boys. We understand there is no  
by-law against shooting within the  
town limits. Surely this is an  
oversight on the part of our  
council, and it now remains for  
them to pass such a law immedi-  
ately and enforce it.At this season when children are  
playing in the bluffs, as were many  
that day, it is unsafe for anyone to  
shoot close to town, and unless  
stringent measures are taken to  
prevent this dangerous pastime,  
other families may mourn the loss  
of dear ones. It is evident that  
the powers that be should give  
time and attention to the remedy-  
ing of this existing evil, as public  
safety demands it.The Paris Soleil thus concludes a  
study of what it believes to be the  
British ambition to found in Africa  
an empire extending from Alexan-  
dria to the Cape: "So far, the Trans-  
vaal and the Orange Free State have  
resisted British absorption. But it  
is certain that the two republics  
will sooner or later be drawn into  
the orbit of British domination un-  
less they find in Europe powerful  
and effective support. The dream  
of English imperialism from the  
Cape to Alexandria is no longer a  
chimera. During the final years of  
the century about to close England  
will have succeeded in carving out for  
herself in Africa, from end to end of  
the continent, an empire of which  
the power of production and con-  
sumption will equal, if not exceed,  
in a near future that of her Indian  
Empire."Under the heading of "Liquor,"  
Commissioner Herchmer in his an-  
nual report says: It is reported con-  
siderable liquor is supplied Indians  
in the far north by traders. This  
matter will be looked after this  
winter. The supplying of Indians  
in the Territories with liquor has  
prevailed to some extent, but all  
such cases are closely attended to,  
and the guilty parties punished,  
but not as severely, as in my opin-  
ion, they should be. In this direc-  
tion we have found the Indian scouts  
most valuable. The North West  
Ordinances re the sale of liquor are,  
in most of the towns, very imper-  
fectly carried out. The matter rests  
with the inspectors, appointed under  
the ordinance, who apparently make  
very little effort to carry out their  
provisions.There is still a halo of uncertain-  
ty surrounding the question of the  
Assembly's meeting and various  
rumours, more or less contradictory,  
are afloat. Meanwhile the Lieut-  
Governor, who has at present no re-  
sponsible advisers, is basking in  
the sunshine and generous hospi-  
tality of Roseland.—Regina StandardNo more striking illustration of  
the relatively bloodless character of  
the recent Turko-Grecian war can  
be given than that of the official  
returns recently issued, accordingto which the number of prisoners  
taken by the rival armies amounted  
to 200 men each, while in the  
Greek hospital there has throughout  
the campaign not been a single  
Greek soldier treated for a sabre,  
bayonet or lance wound, the only  
injuries being those inflicted by  
bullets or by the explosion of shells.  
This is equivalent to the demon-  
stration that there was no hand-to-  
hand fighting, and that the troops  
never really came to close quarters  
throughout the struggle.We have always been under the  
impression that there was a by-law  
to prevent shooting within the town  
limits. We have been informed  
there is none. The fact of the  
matter is this, there have been by-  
laws and by-laws passed, only a few  
printed, and these are unbound.  
Many are more or less ignorant of  
these by-laws. To remedy this  
evil, for evil it is, we suggest that  
these by-laws be consolidated,  
printed and bound in convenient  
form, and guardians of public safety  
and the ratepayers each furnished  
with a copy.COMMENTING upon the honors re-  
cently bestowed by the Queen, the  
London Leader says: "One surprise  
of the honors list is that liquor has  
no place in it. There is not a  
brewing peer nor yet a distiller  
which will certainly be accounted  
an oversight."

FORT QU'APPELLE

(From our own correspondent.)

On Tuesday, 13th inst., the board  
of directors of the Central Assin-  
boia Agricultural society met in  
the board of trade rooms for the  
purpose of making final arrange-  
ments for the grand exhibition to  
be held at the Fort on Wednesday,  
Aug. 11th. Most encouraging re-  
ports were made by those in at-  
tendance from Indian Head and  
Qu'Appelle Station, and the success  
of the exhibition is practically as-  
sured. It was decided to make no  
limit with regard to age of com-  
petitors in the athletic sports. In-  
tending competitors will kindly take  
note of this. Prize lists can be had  
from Mr. A. W. Sherwood, Indian  
Head; J. Doolittle, Qu'Appelle  
Station, and from Mr. Robert Wil-  
liams, sec-treas., Fort Qu'Appelle.  
All communications should be ad-  
dressed to Robert Williams.John Matthews, of Pheasant  
Forks, has been appointed overseer  
of statute labor district 78 by the  
Lieutenant-Governor in the failure  
of the district to elect. Eight other  
districts are treated similarly in the  
last Gazette.Mr. A. M. Rooke left for Eng-  
land last week and will visit the  
Winnipeg and Toronto exhibitions  
en route. We hope he will not  
give up his intention of returning  
to the Northwest.Quite a host of campers from  
Regina and other towns are visiting  
the Fort. We are told that a party  
of twenty-five pleasure seekers in-  
tend visiting the town at the end  
of the week.Mr. E. W. Stevenson, of Balcar-  
res, left for Regina on Tuesday last  
where he will visit friends for a few  
days and then proceed to Manitoba.  
His school is closed for six weeks.Toucheville Hills public school  
district, No. 444, has been proclai-  
med, with Messrs. Slater, Brown and  
Folster as the first trustees.A cricket match is fixed for Sat-  
urday between the Katepewic crick-  
et club and the Industrial School,  
on the grounds of the latter.

Dr. CHASE CURES

FATHER AND CHILD

Both afflicted with Eczema  
of a very troublesome type  
and cured in a remarkably  
short while by Dr. Chase's  
Ointment."I was troubled for ten years with eczema on  
one leg; the itching was something terrible;  
would scratch until the blood came. How I  
suffered! I have a little girl two years; when she  
was one year old the same disease began to  
show upon her face. It wasn't long before her  
face became terribly covered with it. In order  
to keep her from scratching it we had to land-  
age her hands up. I tried several doctors, but  
got no relief. Seeing Dr. Chase's Ointment  
highly advertised, I made up my mind to pur-  
chase a box, which I did from one of our  
leading druggists. The first application I  
noticed a change. It was then I began to  
think about myself. With four or five applica-  
tions, to my surprise, I am completely cured,  
no sign of the disease, and my little girl's face  
to-day is clear of all the scabs. I am only too  
glad to inform any person what a blessing Dr.  
CHASE'S OINTMENT has proved itself."  
"HURAM PREY."  
"Wheat Maker,"  
"Norwood, Ont."

## A SAD ACCIDENT

Theodore L. Scott, Aged 9 Years,  
Loses His Life Through Acci-  
dental Shooting.The 12th of July in Qu'Appelle,  
instead of being the scene of cele-  
bration, was marked by one of the  
most heartrending accidents in the  
history of the town. The town was  
very quiet, a large number of the  
townspeople having gone to cele-  
brate the day elsewhere. A num-  
ber of boys started out in the fore-  
noon to shoot gophers in the vicinity  
of the driving park, taking with  
them a double-barrelled gun and  
some shells loaded with buckshot.  
Some two hundred yards away and  
quite unobserved by them, playing  
on the firebreak near the railway,  
was Theodore Scott, his brother  
Willie, and two little sons of Mr.  
Wm. Hallett. Suddenly Theodore  
dropped to the ground and re-  
mained motionless for a moment or  
so. His companions thought he  
had merely stumbled, but seeing  
blood flowing from his head they  
to run home, as he was hurt. He  
recovered his feet and started for  
his father's office, nearly half a mile  
away, accompanied part of the way  
by his brother and Willie Hallett.  
With a shot in his brain and his  
life blood streaming from the wound,  
it is marvellous how the poor boy  
had strength and presence of mind  
to walk so far. Staggering and  
faint he made his way to the office,  
where his father caught him in his  
arms as he was falling. Medical  
assistance was promptly on hand  
and everything done to help the  
little sufferer, but it was plain to  
be seen death was not far distant.  
During the afternoon he appeared  
to revive somewhat and regaining  
consciousness expressed a desire to  
sleep. About six o'clock he was  
removed to his home, on a stretcher  
borne by careful hands. A few  
minutes after arriving he breathed  
his last, opening his eyes but for a  
moment before passing away. His  
parents were completely prostrated  
by the shock, and friends and ac-  
quaintances deeply sympathize with  
them in their affliction.As to how he was hit it is gen-  
erally accepted that a buckshot  
ricocheted after striking the ground  
causing it to fly in the direction of  
the child, striking him on the right  
side of the head, cutting the pos-  
terior temporal artery and entering  
the brain.It was thought unnecessary to  
hold an inquest as death was clearly  
the result of accident.The funeral took place on Wed-  
nesday morning, and was largely  
attended. A short service was  
held at the house. On leaving the  
which, the coffin, strewn with wreaths  
and crosses of flowers, and borne by  
four little boys, was carried through  
a double line of day and Sunday  
school children, who then formed  
column and followed the remains to  
the Presbyterian church, where a  
short and impressive service was  
preached by Rev. Mr. Thomson.  
Several hymns, favorites of the de-  
ceased, were sung, among them one  
which he had sung the day before  
his death, and of which he was  
very fond—"Onward, Christian Sol-  
diers"—was beautifully rendered by  
the children and congregation. After  
the service the remains were taken  
to the cemetery followed by a large  
number of sympathizing friends both  
old and young.Beautiful flowers—wild and tame  
—were sent by many friends. His  
former Sunday school teacher, Miss  
Schofield, sending a wreath of carna-  
tions from Winnipeg; his day school  
teacher, Miss Talbot, a cross; Mrs.  
Lidgate, his last Sunday school  
teacher, a wreath; Master's Albert  
and Leo, Beuchamp, a cross; Mr.  
and Mrs. Doolittle, a sickle; Mr.  
William Miller, a star; Mrs. D. S.  
McCannell, a cross; Mrs. Geo. Gil-  
son, a cross; Miss Ellen Barnes, a  
wreath; besides innumerable floral  
gifts from friends whose names we  
did not learn.

Lorlie Dingslups.

Lorlie, July 13.—The glorious  
12th of July is over once more.  
Our brother Overmen met at Fort  
Qu'Appelle. Success to the Orange  
order in this western country.We understand that there are  
two applications for the position of  
postmaster for Lorlie. A petition  
has been on its rounds through the  
district and when last heard of it  
was headed down with three names.

We understand that Mr. D.

Cantelon has sold the balance of

his stock of goods to Mr. H. Aldous,  
who will conduct the Lorlie store  
in future. Mr. Cantelon goes east  
next week to purchase a carload of  
goods for his new store on the Bell  
Plains. He will be accompanied  
as far as Winnipeg by Mr. Johnson.The government grader is at work  
here this week under the able man-  
agement of Mr. Barber, of Wolseley,  
and our roadmaster, Mr. H. Aldous.  
The work so far has been well done  
and will be a credit to the men in  
charge.Mr. and Mrs. D. Knight, of Ox-  
bow, are here on a visit at Mr. W.  
Barnes.The Indian Head agent, Mr.  
Turner, was here on business last  
week.Miss Barton has returned from  
Regina.

Chicken Chirpings.

(From our own correspondent.)

Our annual chicken meeting was  
held last Sunday in a grove east of  
Mr. W. Doolittle's place. The day  
was perfect, and quite a large num-  
ber of people were present. The fol-  
lowing speakers took part: John Towner,  
Mr. S. Chippewas, Mr. J. Towner, Mr.  
Marsden, Mr. Knight, and Mr. J. A.  
Allen. After the meeting was over  
a vote of thanks was tendered to  
those who had come from a distance  
to take part, and Mr. W. Doolittle,  
who lent the grove for the occasion,  
of Hill Farm.The Government road grader has  
been very busy in this township  
this week. Some good roads have  
been made.

School reopened last Monday.

We have thirteen names on the roll.

Mr. Austin Turner lost a valu-  
able young horse recently.

McDonald Hills Happenings.

(From our own correspondent.)

C. E. Macgregor, of Qu'Appelle  
Station, has bought out W. Curry,  
lock, stock and barrel, and has  
taken possession of his ranch. He  
has already put up a large quantity  
of hay. Mr. Curry is in Qu'Ap-  
pelle purchasing a new outfit to  
start in again at Touchwood.A dance was held at the Mission  
lately. Several members of the  
Cow Boy Club, accompanied by  
their sweethearts, attended, and re-  
port having enjoyed themselves.Cattle are as fat as seals, there  
being no mosquitoes and flies to  
bother them this year.Haying has commenced and will  
soon be in full swing. The crop is  
excellent.Mrs. Brown left on Tuesday to  
join her husband at Medicine Hat.

O'Connor Powell Dead.

## THE NEWS OF THE DAY.

### A FEW BRIEF PARAGRAPHS FOR BUSY PEOPLE.

**The Flotam and Jetson of the World.**  
Around us Portraits in Condensed Items, Which Treat of Men and Things in a General Way.

Chicago claims a population of 1,825,000.

The U. S. senate fixed the duty on coal at 67 cents per ton.

The Doro gold mine, of Belleville, Ont., now yields a thousand dollars per week.

The Rev. Bruchesi, of Notre Dame church, Montreal, has been created Archbishop of Montreal.

The Guinea gold mine, Kalamit township, near Belleville, Ont., has been sold to American capitalists for \$30,000.

The steamship Aden was wrecked off the east coast of Africa and seventy-eight of her passengers and crew are supposed to have perished.

Two hundred Swedish girls of Chicago are going to visit the Stockholm exposition, and most of them will go over as cabin passengers.

The decrease of flax seed in Minnesota and the Dakotas will be about 40 percent this year. The early sown flax has also been injured by frost.

In a recent terrific storm lightning struck the convict camp near Kalamit, Ga., killing four convicts. Ten are dying and twenty escaped in the panic which resulted.

Many claims, against the corporation of Montreal for damages, arising from the flooding of cellars during a recent rain storm, have been filed at the city hall. Last year there were damages of \$10,000 paid by the city.

Senor Canovas Del Castillo says if the Spanish forces in Cuba suffer severely from sickness during the rainy season, the government will send 20,000 additional troops to the island in October to maintain the army at its full strength and inflict a final blow upon the insurgents.

At the sale of the library of Earl Ashburnham, held recently in London, Eng., Bernard Quaritch, a London bookseller, bought a Mazarine bible, folio of vellum printed in 1575. This volume is the first bible ever printed, as well as the first book ever printed with movable metal type. The price paid for the book was £1,000.

John S. Meyer, a bookkeeper and cashier of the New York Insulated Wire Co., of Chicago, has been indicted on the charge of embezzlement and larceny. He is under arrest. Meyer has been in the employ of the company since 1893, and was practically in charge of the Chicago branch of the concern. The amount of the alleged embezzlement is said to be about \$10,000.

Owing to the council of the city of Kingston, Ont., being composed of eleven Liberals and eleven Conservatives, a deadlock occurred the other night over the appointment of the city clerk. The applicants were Lt. Col. Drennan, Conservative, and Mr. Galloway, Liberal. A decision could not be arrived at and Mayor Skinner found it necessary to dissolve the council.

An animated marine hunt is in progress in the river of the Humber, Quebec. Half a dozen boats filled with sporting men armed with shot guns and harpoons are endeavoring to shoot or to capture a monster animal of some kind. Many declare the strange visitor a sea serpent and say it is over forty feet in length, with an enormous head which sits two feet out of the water.

### FOUR GOLD BRICKS.

**The Result of the First Run of the Trail Refinery.**

The first gold bullion produced in the Trail refinery run out a few days ago, and four big gold bricks were the result. In shape they were considerably wider and longer than ordinary building bricks, but in the knees they were somewhat thinner. Stamped with their assay value, the big blocks of precious metal were forwarded to Montreal in the care of two trusted messengers.

Though only in operation a few days during which time purely experimental work has been carried on, the refinery has proved a splendid success. The process in use is one that Superintendent B. Blinger has worked out, and though it has not yet been perfected, the results already reached show that it is well adapted to the matte produced in the Trail smelter.

The experiments now in progress are being carried on behind closed doors and no information is being given to the public, but it is known that the process in use is one that Superintendent B. Blinger has worked out, and though it has not yet been perfected, the results already reached show that it is well adapted to the matte produced in the Trail smelter.

## FIRE AT SEA.

**The City of Rome has a Narrow Escape From Destruction.**

The Anchor Line steamer, City of Rome, Captain Hugh Young, arrived from Glasgow and Montreal, after a fight with fire on board ship, which, fortunately, was quickly got under control by the ship's fire crew. Captain Young reports that the City of Rome sailed from Glasgow and Montreal on June 19, with 56 saloon, 10 second cabin, and 150 steerage passengers, and a cargo of general merchandise. Fine weather was experienced. On Saturday, when the City of Rome was steaming along rapidly towards the American coast, the bridge detected smoke issuing from No. 4 hold. The chief officer was quickly sent forward to investigate, and the captain's worst fears were verified, as dense volumes of smoke began to ascend from the hold. The fire alarm was sounded, and the ship's crew beat to quarters. Meanwhile an officer was detailed to notify the passengers, who were sitting or promenading the decks. The ship's fire crew promptly responded to the captain's call, and in a few minutes the fire was under control. The fire alarm was sounded, and the ship's crew beat to quarters. Meanwhile an officer was detailed to notify the passengers, who were sitting or promenading the decks. The ship's fire crew promptly responded to the captain's call, and in a few minutes the fire was under control.

When the fire was discovered, preparations were made for abandoning the ship, says E. S. Brender, of Albany, one of the passengers. The hurried passengers assembled in the main saloon with hand luggage and life belts. Capt. Young addressed them briefly, giving them the option of remaining on the steamer or being transferred to a barkentine and a schooner which were going in opposite directions. Mr. Brender put the motion to remain on the steamer, and it was carried almost unanimously.

### SIX THOUSAND SLAIN.

**Expedition to the Headwaters of the Nile Massacred.**

It is learned from a good source that the entire Dhanis expedition to the headwaters of the Nile, including Baron Dhanis himself, has been massacred. Baron Dhanis last year enlisted 6,000 men in the Congo Free State, to take part in a secret expedition. The British government allowed a number of Hunzer troops to join the expedition, but it was officially denied that an Anglo-British movement had been thus concerted against the Mahdists. The general impression, however, was that this force was intended to act in conjunction with the Anglo-Egyptian expedition up the Nile and take the Mahdists between two fires, and eventually complete the reconquest of the Sudan. In August last Baron Dhanis was reported to have arrived at Lado, north of the territory of the Congo Free State, on the White Nile and some 325 miles north of the Victoria Nyanza. It was then understood that the Dhanis expedition would push northward in the direction of Khartoum.

Early in December last it was reported that the expedition had met with disaster and that Baron Dhanis had been killed. Later it was authoritatively stated that the expedition had been completely annihilated and that Baron Dhanis had been killed.

Baron Dhanis was born in London in March, 1867, of a Belgian father and a mother of English extraction. He was educated in Scotland and in Belgium and entered the military school at Brussels in 1882. In 1884 he became a lieutenant in an infantry regiment and later he was entrusted with a mission to Zanzibar by the International African association. He soon displayed considerable ability and was appointed by the Belgian government to the command of the expedition to Katanga. He defeated Congolese one of the most aggressive of slave-trading Arabs; defeated the son of Tippu Tib and Munie Moharre and captured Nyangwe and Kasongo. Dhanis also inflicted a crushing defeat upon Rumlalza with the result of completely overthrowing the Arab rule in the Tanyanka district. Later he returned to Belgium and was made baron by King Leopold. His appointment to the Anglo-Belgian secret expedition against the Mahdists was the next chapter in the career of this officer.

### A REVOLT FEARED.

**Incompetent Guards and Powerless Governor of Montreal Jail the Cause.**

A general revolt is feared at the Montreal jail as a sequel to the recent escape of three prisoners. Political considerations have completely demoralized the staff, and Governor Vallee is governor only in name. Men are said to have been appointed as guards for political reasons, and no information is being given to the public, but it is known that the process in use is one that Superintendent B. Blinger has worked out, and though it has not yet been perfected, the results already reached show that it is well adapted to the matte produced in the Trail smelter.

## BEAUTY AND HEALTH TO FAIR WOMEN.

Miss Annie Patterson, of Sackville, N. B., Once the Victim of Nervous and General Debility, Takes on the Health of Early Years.

Some remedies are nothing more than a temporary stimulant, and the reaction aggravates the disease. Where the system has become run down, and nervous debility in its worst form has shown itself, South American Nervine will cure. It strikes at the nerve centres and rebuilds the system by removing the real cause of trouble. Miss Annie Patterson, of Sackville, N. B., a lady well known in the Maritime Provinces, suffered terribly from indigestion and nervousness, and her case seemed incurable. She accepted South American Nervine without hope that it was any different to other remedies, but her words are: "I had taken only one bottle when my system began to take on the health of early years, and after taking three bottles I was completely cured."

"Gibbs at last has got his wife to ride a wheel." "How did he manage it?" "He had somebody start a report that he didn't want her to ride."

### THE DOOR TO GOOD HEALTH.

In Through the Kidneys—Like a Well Planned Sanitary System They Keep the Human Body Healthy—Interesting Story From Quebec.

The kidneys have appropriately been described as the sanitary system of the human body. Let them become impregnated and clogged with uric acid, and unless the obstructions be removed, death will be the result. Mr. D. J. Lecke, of Sherbrooke, suffered for years from complicated kidney trouble, and spent over \$100 in efforts to secure relief, but no relief came until he used South American Nervine. His statement is that four bottles completely cured him, and today he is in the enjoyment of good health. It is the most distressing cases this remedy gives relief in six hours.

Soon will the merry ice-man come  
And thus philosophize  
"It's wrong to try to estimate  
The value by the size."

### TERRORS OF RHEUMATISM.

A Remedy which is Instantaneous and Permanent in Effect. A Calgary Resident Crippled for Three Years Becomes Strong as an Athlete.

No subtle or mysterious force could be more efficacious in its effects than is South American Nervine in all cases of rheumatism. James A. Anderson, of Calgary, N. W. T., says that seven or eight years ago he became afflicted with rheumatism, and for three years it made him a cripple, so that he had to use a stick to get about. In his own words: "I suffered untold misery, and thought treated by the best physicians in the country, and I spent a term in the hospital, recovery seemed as hopeless as ever. A friend recommended South American Nervine. I gave me help immediately and after the second bottle I threw away my stick. Today I am as strong as an athlete." Price 75 cents.

The "merry month of May" has not been merry, mild or nice; But it kept them from attempting to increase the price of ice.

An ill-fated Train.  
Mr. J. Himmer, of Windsor, Ont., was on the train which went through the bridge, at St. George, Ont., in 1888. In the accident his kidneys and back were seriously injured, and have since caused him great suffering. Mr. Himmer says: "Until I obtained Dr. Williams' Pink Pills I never knew what it was to be free from pain. They have entirely removed the pain, and I am able to work every day now. They have produced better results than all the other medicines combined which I have used in all my years of suffering. I regard them as a specific for kidney trouble."

"I noticed you weren't in church on Sunday. I hope you were not indisposed?" "Well, I was averse to going, if that's what you mean?"  
The Head Master.  
GENTLEMEN, I have found great satisfaction in the use of Dr. Fowler's Extract of Wild Strawberry, and consider it invaluable in all cases of dyspepsia and summer complaint. It is a pleasure to me to recommend it to the public.  
E. B. MASTERTON,  
Principal High School, River Charles, N. B.

"It looks fresh." "Are you talking about me sir?" "Certainly not. I am talking about the paint on the bench you are sitting on."

Here is the Way.  
To cure all heart and nerve troubles and that weak, weary, tired feeling, sleeplessness, nervousness, etc., do as Mrs. Thos. Glover, Chatham, Ont., did. Says Glover, "One box of Milburn's Heart and Nerve Pills cured me. I was so bad, that I feared paralysis, but am now well and strong, thanks to these wonderful pills."

Potteries—"What on earth has given Smitherton such a bicycle race? He doesn't ride a bicycle." Says the "No, but he had to buy three bicycles for his family to ride."

For Weak People.  
Milburn's Heart and Nerve Pills for weak people having heart or nerve troubles, such as palpitation, throbbing, spasms, dizziness, shortness of breath, etc., are an invaluable medicine as hundreds of certified cures bear witness. For anemia, debility, after effects of a prostration and loss of appetite they are a specific.

Curious—(Investigating client's story.)—"Now you must keep nothing from me." Client—"I haven't. I paid your agent I had in the world for your retainer."

Weakness and Dyspepsia Cured.  
DEAR SIR, I can heartily recommend Burdock Blood Bitters. For a long time I was troubled with dyspepsia and weakness. The least exertion would tire me out. I am glad to say, however, that your B. B. B. has greatly benefited me, curing the dyspepsia and making me strong and well.  
JENNIE EVANS,  
Respector, Ont.

"And do you think you can make my daughter a happy woman?" asked the father. "I guess so," replied the young man. "What make wheel does she prefer?"

A Cure for Children.  
DEAR SIR, I used Hygiee's Yellow Oil for children this winter and found it most effective. It relieves the irritation almost immediately, and a few applications resulted in a complete cure.  
F. LESTRAUNGE,  
Port Sydney, Ont.

## A PECULIAR CASE.

**DISTRESSING RESULTS FOLLOWING VACCINATION.**

A Young Daughter of David McHardy of Fergus, the Victim—Has Suffered the Most Intense Agony Doctors Failed to Help Her.

From the Fergus News-Record.

Nearly every person in this section is acquainted with Mr. David McHardy, the popular leader of St. Andrew's church choir, Fergus. Our reporter called on Mr. McHardy in his home at Upper Nichol recently, and from him and his estimable wife a tale of terrible suffering was elicited, suffering that has brought a once exceptionally strong and healthy child to the verge of the grave. The subject of the sketch, Lena McHardy, is fourteen years of age, and her parents say she has not grown up since her illness some two years and a half ago. Her terrible suffering dates from the time she was vaccinated in June, 1894, and what she has since undergone has aroused the deepest sympathy of all the friends of the family. In conversation with Mr. McHardy and his wife, the following facts were elicited:—Two years ago last June, said the father, "Lena was vaccinated by a doctor in Fergus. The arm was very sore and swollen all summer, and became so bad that it was a mass of sores from the shoulder to the elbow. In October, 1894, a large lump appeared on her back over one of her lungs. The doctor who vaccinated her treated her all that summer, calling very frequently, but the medicine he gave her did her no good and she was growing weaker and weaker. When the lump broke out on her back another doctor was consulted who said she was in a very bad state of health. Her constitution seemed to be completely undermined and her appetite had completely failed. The last doctor called in gave some outward applications and lanced the gathering, but it did not give the patient any benefit. Nine such gatherings have appeared since that time, but each broke and disappeared of its own accord, only, however, to be followed by another. The child became very puffy, and little or no food would remain on her stomach. At night she would fairly rave with the pain in her arm and back, and consequently her trouble was aggravated by a loss of sleep. She had the best of attendance but to no avail, and she was slowly but surely sinking. Friends advised a treatment with Dr. Williams' Pink Pills, and as a last resort, they were tried. To the surprise of both parents and friends, Lena began to improve soon after beginning the use of the pills. Her appetite returned, she became stronger and her general health much improved. The same has not yet left her back and arm, but her constitution is being so very much improved under the treatment with Dr. Williams' Pink Pills that her parents are looking for a complete cure. Mr. and Mrs. McHardy thank Pink Pills for the present improved condition of their child, as they have done her more good than the several bottles of doctor's medicine which she took."

Dr. Williams' Pink Pills are a blood builder and nerve restorer. They supply the blood with its life and health-giving properties, thus driving disease from the system. There are numerous pink colored imitations, against which the public is warned. The genuine Pink Pills can be had only in the wrapper around which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." Refuse all others.

## Bold Chinese Escape.

There has been a general exodus of Chinese from the tea farm established as an oriental exhibit at the Tennessee centennial exhibition. Over a hundred Chinese, eluded the vigilance of United States inspectors and are now at large. The plan of escape was bold and successful. Shortly after dark on a twilight moon, a crowd of Chinese, with lanterns, and an hour later it was quietly loaded with its human freight and run to the Centennial station in time to be attached to the regular westbound passenger train. Government inspectors seem to have been completely outwitted.

## They Both Claim Him.

A man named John Coleman died at the Toronto general hospital a few days ago after an operation. He was living until lately in a room on Shuter street, and who went to see him several times in the hospital. After his death another woman turned up and claimed the dead man as her husband, identifying him as John Caldwell. She has four children, a marriage certificate, and a portrait of the deceased. The other woman has also a marriage certificate as she alleges, with deceased. Both claim the right to bury the body, and both claim the furniture of the room he recently occupied.

## Local and General

—Mr. Geo. Hudson and little son, of Touchwood, are in town.

—Mr. W. Smith, advocate, Indian Head, was in town yesterday.

—Mr. W. A. Caswell left for the east on Monday for a six weeks visit.

—W. Walker has added a commodious kitchen to his new residence.

—Mr. D. S. McCannell returned yesterday from a visit to his ranch at Kennell.

—Messrs. White, Bull and Hallows left for Maple Creek yesterday morning to start ranching.

—The report is current on the street that two more elevators are to be erected here this fall.

—Aur person cutting hay on section 8.18.15. W. 2nd M. will be prosecuted. J. A. Longpre.

—Mr. W. McGregory, late of Moose Jaw, has accepted a position as salesman with S. H. Caswell & Co.

—Bricklaying on McKenzie's new store is finished and the carpenters are now busy completing the building.

—Mr. W. T. Thompson, district engineer, and his assistant, Mr. E. C. Boyce, returned from Yorkton Tuesday evening.

—Work commenced on the new wing to the school house on Monday. Truly our friend Contractor Robinson is a busy man.

—The creamery association is to be congratulated upon the good quality and large quantities of butter manufactured at this point.

—The picnic in connection with the Church of England last Thursday, held at the College farm, passed off very pleasantly. All report having enjoyed themselves.

—A stone foundation is being put under the dwelling house owned by S. H. Caswell on Qu'Appelle street, and the building is undergoing a thorough overhauling.

—Messrs. Creamer & Gray have received a large number of McCormick binders and mowers, which are being rapidly disposed of. This firm has faith in printers ink.

—Jas. Coulter, Wawanesa, has been fined \$500 for having in his possession a grain-steaming apparatus that looked like an illicit still in the eyes of the revenue officers.

—Mr. Benedict Weimar took his little daughter to Winnipeg on Monday night for ophthalmic treatment at one of the hospitals. The little girl has been suffering for some time with an affection of the eyes.

—While giving a private exhibition of sword swallowing in Winnipeg last Friday, Prof. Rowland, of Prince Albert, internally injured himself and died from the effects on Monday night at the General Hospital.

—Here is an item of good news. The Dominion government has decided to put the alien labor law in force in Manitoba, the Northwest and British Columbia, so as to protect Canadian workmen on the Crow's Nest Pass railway.

—The City Meat Market has again changed hands. Mr. R. Johnston having purchased the business from Scott & Co. Business will still be carried on in the old stand. Mr. Bird, late of Grenfell, will be in the shop to attend customers.

—W. Cleverly was in town Saturday, representing Cleverly & Ferguson, of Brandon, manufacturers of aerated waters and temperance drinks. Mr. Cleverly bears a strong resemblance to Premier Greenway and is sometimes taken for that gentleman.

—The Commissioner of the N. W. M. P. requests us to inform the public that in all suspected cases of contagious diseases, such as glanders among horses, tuberculosis and lumpy jaw among cattle, scab and sheep and cholera, the nearest police constable should be at once notified, when the necessary action will be taken to prevent the spread of the disease. This procedure will save considerable time as all such cases now reported to the Department of Agriculture are referred to the Northwest

Mounted Police for investigation and action.

—Mr. J. M. Creamer, V. S. of Regina, was in town on Monday. He has resolved of making our town his headquarters for the future, and expects to take up his residence here almost immediately.—Vidette.

—Paul Kay, who lost sight of his hand of horses after last fall's fire, has received information of their being at Birch Creek about forty miles north of Fort Qu'Appelle.—Vidette.

—Mr. Colin McLean informs us that his section of country was visited by hail on Thursday last. A neighbor of his had a fine crop destroyed, and a part of his own was more or less damaged. He has not heard up to this time of anyone else suffering.

How many people are ashamed to go into company on account of their tooth-aching breath, caused from catarrh or cold in the head? If they would scrub their own nostrils they would soon have sweet breath like their neighbors. There is one sure cure for catarrh and that is Dr. Chase's Catarrh Cure, three or four drops through the nostrils and you get rid of it immediately. Price, including bottle, 25 cents.

—A large number of people have taken advantage of the cheap fare on the Winnipeg Exhibition. On Saturday night upwards of forty boarded the train here and every night since one or more have left, so that the town now presents a deserted appearance.

—Sergeant Fyfe distributed a large sum of money to the agents of the different reserves a week or so ago. During the time the gallant Sergeant had the money in his possession he did not sleep much, and as a consequence was thoroughly tired out on his return home.

—Last Monday as Miss M. Wilson, accompanied by her sister and nephew, were out driving, the former was jolted out of the buggy in crossing a side-walk. She fell to the ground with the little boy in her arms, the buggy wheel going over her. Beyond a scare and a few bruises no other injury was done.

—Wm. C. Stewart, general advertising agent of the World's Dispensary Medical Association, Buffalo, N. Y., paid Qu'Appelle a visit on Tuesday evening, accompanied by his wife. Mr. Stewart is well known among the newspaper men throughout America. This is his first trip through this part of the west, and he expressed himself pleased with our country.

—Editor McInnis, of the Regina Standard, has enlarged his paper and introduced several new features, which will make this popular journal still more interesting. It is pleasing to note that although there is an apparent shrinkage in the population of Regina, it has in no way "contracted" the appearance of the Standard.

—L. M. Ives, 186 Dorset street, Montreal, 15 years suffered. Cured of Blind Deafening Piles.

—Wm. Butler, Cassoway, Ont. Suffered many months. Cured of Prolapsing Piles by one box.

—Edmund Bastard, Gower Point, Ont. Suffered for 20 years. Cured of Hemorrhoidal Piles by three boxes.

—Nelson Simmons, Myrland, Ont. Cured of Hemorrhoidal Piles.

—Dr. Chase's Ointment will positively cure all forms of Piles. Write any of the above if in doubt.

—On Sunday last Mr. C. Matthei, of Dams, gave his little girl the reins to hold of a pony he had been riding, while he went into the house. The pony got away and Mr. Matthei borrowed Frank Kemp's horse to go after it. While riding at full speed trying to round up his horse the pony he was holding, leaped into a badger hole and broke its neck. Mr. Matthei was thrown to the ground but escaped with a severe shaking up.

—On Saturday evening last a gentleman named L. Gan, accompanied by his son, arrived in town from Edmonton by wagon. He is driving to Ontario, which he says he regrets leaving. Mr. Logan informs us that a number of other families also intend leaving, as he says for seven years he has been unable to raise a crop owing to early frosts. Persons dissatisfied should stop off here and take a look at our district.

—The Delinquent for August gives full-page color plates and intertextual illustrations of hot weather modes and fancies, supplemented by a special article on morning attire. It is also notable for its fiction. All other departments are

Awarded  
Highest Honors—World's Fair,  
Gold Medal, Midwinter Fair.

DR.  
PRICE'S  
CREAM  
BAKING  
POWDER

A Pure Grape Cream of Tartar Powder.  
40 YEARS THE STANDARD.

—Our polo team, consisting of Messrs. Fetherstonhaugh, Iredale, McDonald and Davis, left for Winnipeg on Saturday, their ponies having preceded them under the care of T. Dillon and E. Read. We trust they will return with the championship.—Vidette.

The Indians on Papot's and Mus. competing's reserves received treaty payments last week.

Vernon Views.

Mr. A. J. Elve has a fine crop of grain this year, which is hard to equal. He has about forty acres of what stands over four feet high and is exceptionally well headed out. We expect to hear a threshing record of about fifty bushels to the acre. His garden this year is also ahead of anything your correspondent has seen. It throws the city market gardens in the shade.

Mr. C. H. Evans, who left here some time ago to participate in the Jubilee in England, has disposed of his property in that country and is expected shortly to return. He intends to purchase more land in this vicinity. Mr. Evans formerly purchased his present farm and has never homesteaded as there is no vacant land in Vernon.

A very interesting game of football was played on Wednesday evening, the 14th inst., between Edgemoor and Vernon teams, which resulted in a victory for the Vernon team, the score being 3 to 1. The match was played on the Vernon ground.

The Church of England fortnightly service was well attended, there being over forty persons present. Rev. E. B. Brown, of Regina, officiated for that day.

New machinery of every description, also a number of new buggies are seen coming into Vernon settlement every few days, which shows its prosperity.

A Justice of the Peace is much needed here, as our nearest is at Qu'Appelle Station, which is very inconvenient at times.

We are sorry to hear of the illness of Mr. A. H. Miles. The doctor thinks he has pleurisy.

The Only Perfect Dye-stuffs in the World.

The scientific preparation of dyestuffs and putting them up in proper shape for family dyeing has been brought to perfection by Wells & Richardson Co., who are proprietors of the celebrated Diamond Dyes.

These popular dyes have banished from the homes of Canada madder, fustic, logwood, cochineal and all other antiquated dyestuffs. The work of home dyeing is now done quickly and successfully by Diamond Dyes; the process is one that would astonish our grandparents.

To-day millions all over the world use the scientific Diamond Dyes in preference to all others. Diamond Dyes commend themselves to all who use them, because they are the brightest, strongest and fastest, and the easiest to work with.

Diamond Dyes, like all other perfect and popular preparations, are largely imitated in style of package and the way they are put up. These imitations are worthless and adulterated dyes, ruinous to all kinds of goods and dangerous to health. Great caution is advised when buying dyes for home use. Ask only for the "Diamond;" see that the name is on every packet.

Napoleon's Value of Victory.

It Finds a Striking Counterpart in Recent World Triumphs.

Napoleon knew well the value of a victory. After Antislitz the world seemed his. Fame invited, fortune favored, everything stimulated this aspiring ambition. With growing power he gathered the fruits of victory. And so it has ever been. Success succeeds. A notable illustration of this truth is furnished by the great victories won at the World's Fair in '93 and the California Midwinter Fair in '94 by Dr. Price's Cream Baking Powder. Ever met sales and popularity are the result. The people have promptly ratified the official verdict that declared Dr. Price's for leavening power, keeping it light, fluffy and general excellence "the best baking powder in all the world." Quite as quickly as the great Emperor do they know the value of a victory that means world-wide supremacy.

Card of Thanks.

Mr. and Mrs. Scott desire to express to the kind hearted Qu'Appelle people elsewhere their heartfelt thanks for the many acts of kindness and sympathy shown them in their bereavement.

Insanity  
In Summer

Brought on by Nervous and Mental Troubles.

Paine's Celery Compound The Great Tower of Safety.

Nervous diseases when aggravated by mental disturbances produce more cases of insanity in the hot weather than at any other season of the year.

Nervous headache, nervous dyspepsia, sleeplessness, and chronic constipation induce depression of spirits, extreme weakness, morbid fears, despondency and languor; from these great insanity comes slowly and surely.

Nervous sufferers have a dread of hot weather. Finding themselves deeper in the pit of misery than they were in the spring and early summer, they are in utter despair. Thousands whose cases have not been met by treatment they are now under are loudly calling for help.

There is hope and rescue for the sufferer, if you are one of the sufferers. You are in need of Paine's Celery Compound, that builder of the nervous system. Its vitalizing action commences with the first bottle you use. You soon begin to realize that you are daily drinking health. The volume of blood immediately increases in the arteries, and the body is fully fed and nourished. Your appetite becomes keen and natural, the tired nerves and brain are strengthened, and you feel impulses of health that cheer the soul.

The power of Paine's Celery Compound over nervous summer diseases is admitted by tens of thousands who have used the wonderful medicine. This remarkable remedy will most assuredly meet your case and give you a new life. It will lay the foundation for future happiness and long years. Weak, wretched, and infirm reader, we counsel you to make use of this life restorer at once, and enjoy the true blessings of health.

Spencerville Splashes.

(From our own correspondent.)

On Saturday evening a large number of Spencerville's most respected citizens were at the station to bid adieu to Mrs. Mitchell, on her departure to Ontario, for her summer vacation. We join in wishing her a pleasant visit and look forward to the happy time when she will be back to settle down permanently with us.

The rate-payers of Starr's Point School District had a meeting for the purpose of selecting a site for their new school, but failed to agree. The married men wanted it at their doors, but the bachelors looking to the future are "kicking" manfully, backed up by the young ladies.

The Wood Mountain road has just been levelled and smoothed off under the able management of our worthy J. P. Starr.

On Saturday evening five of our Spencerville people including the landmaster, left for the Winnipeg exhibition.

Two of the best looking girls in Spencerville paid your correspondent a visit on Wednesday evening.

Anyone wishing to see some fine wheat fields should visit this vicinity.

Mr. W. McMichael left on a trip through B. C.

Biggest Yet.

The Winnipeg Industrial Fair for '97 is going to outstrip all previous efforts. The management are taking extraordinary means to make it one of the most complete agricultural, industrial and art exhibitions ever held in Canada. This Fair owing to its past success is now creating such widespread attention and interest, that the American railroads will this summer run special excursion trains from Illinois, Minnesota and Dakota to the great Winnipeg Industrial Fair. One of the first causes of the universal popularity of the Winnipeg Fair has been the providing of amusements for the visitors by the management.

This summer visitors from the country will be lured after in that respect better than ever before. Messrs. Scott & Short, the proprietors of the Grand Opera House, have been prevailed upon to transform the M. J. Rink, the largest building ever erected in the city, into a magnificent amphitheatre, with a seating capacity of 2500, raised upon a high platform, and have secured one of the very best spots on the banks of the Red River.

At White, slightly postmarked, general is superintended, and Dr. G. W. White, general manager.

The election of Canon Bruch to the Archbishopric of Montreal is a most happy result.

It is said that both the United States and Japan are negotiating to buy warships from France.

MRS. BUYER.

We invite your inspection of our stock of

Prints, Muslins, Cottons, Cretonnes, Gingham and Dress Goods,

Cotton Hose from 10c. a pair upwards. A large stock of Ladies' Vests at Right prices. Give us a call and see for yourself.

J. P. BEAUCHAMP,  
QU'APPELLE STATION.

Farmers!

Will you note that our extensive stock of Farm Horses, with the very superior quality, and our large stock of Farm Implements, are ready to meet the needs of the farmer in any season of the year, and we are prepared to have a full line of Farm Horses and Farm Implements, and our prices are the lowest in the West.
